Not Just Quality. Delphi Quality.

# The Delphi Advantage.

60 years of OE technology and expertise.

Delphi is proud to deliver OE technology and expertise to create green and global solutions – remanufacturing supports Delphi’s focus on green by keeping parts on the road and out of landfills. Our remanufactured all makes injectors reflect our OE technological know-how ensuring each injector meets our specifications and provides optimal engine performance.

Each injector is completely disassembled, and the components cleaned and examined for wear and breakage. All critical, worn out or non-functioning components are replaced with new parts to help ensure reliability and performance. Then, each injector is reassembled and tested for compliance in fuel delivery, injection pressure and timing.

Delphi’s remanufacturing process is streamlined, efficient and meticulous, demonstrating our commitment to Delphi quality.

**Trust Delphi to ensure your parts are ready for the road ahead.**

**Not Just Quality. Delphi Quality.**

\* When replacing this Flat seal type injector, all of the injectors on the engine must be changed to the latest Conical sealing type.

## Did You Know?

To ensure proper engine performance, the new unique trim code provided in every C7, C13 and C15 injector box must be entered into the ECM.

The trim code eliminates any variation in injector performance due to small differences in manufacturing tolerances, friction between components and fuel flow.

## LUBRICANTS

**FortproUSA#: 77-4256**

**Description:** ENGINE OIL HDX 15W-40 (20 LT)

**Product Data Sheet:** ENGINE OIL HDX 15W-40 is an extra high performance universal engine oil designed for high load-ed diesel

engines in light- and heavy commercial vehicles working under severe operating conditions through the whole year for use in Euro-3, Euro-4 and Euro-5 engines equipped with EGR and/or SCR. This product is not suitable for vehicles equipped with DPF filters.

ENGINE OIL HDX 15W-40 is formulated with high refined solvent mineral stock in combination with a special additive package to reach the following properties:

- Excellent thermal- and oxidation stability.
- Very good dispersancy and detergency.
- High anti-foam, anti-wear and anti-corrosion properties.
- Excellent protection against Bore Polishing.
- Extended drain intervals.

## LUBRICANTS

**FortproUSA#: 77-4251**

**Description:** ENGINE OIL SHPD 15W-40 SINTETIC (20 LT)

**Product Data Sheet:** ENGINE OIL SHPD 15W-40 is a fuel saving MID SAPS super high performance universal oil based on 100%

synthetic technology designed for high loaded diesel engines in light- and heavy commercial vehicles working under severe operating conditions through the whole year for use in Euro-4, Euro-5 and Euro-6 engines equipped with a Diesel Particle Filter (DPF) and suited for diesel engines equipped with EGR and/or SCR after treatment system. ENGINE OIL SHPD 15W-40 is formulated with high refined base stock in combination with an unique additive package to reach the following properties:

- Excellent thermal- and oxidation stability.
- Very good dispersancy and detergency.
- High anti-foam, anti-wear and anti-corrosion properties.
- Excellent protection against “Bore Polishing”.
- Extended drain intervals.
- Complies with strictest European emission regulation.
